## Willkommen in Basel

Liebe Kolleginnen und Kollegen

Ich freue mich, Euch zur diesjährigen 59. Jahrestagung unserer Fachgesellschaft nach Basel einladen zu dürfen.

Seit langer Zeit findet dieser Kongress mal wieder am Rheinknie in der Nordwestschweiz statt. Mein neuer Bürgerort ist eine Stadt der Life Sciences und Künste, gerne möchten wir Euch dies durch unseren Kongress vermitteln und einen interessanten Aufenthalt bieten.

Wir können mit gutem Gewissen sagen, dass Swiss Plastic Surgery für die Bürger der Schweiz eine Versorgung im gesamten Behandlungsspektrum auf höchstem Niveau bieten kann. Unser Fachgebiet wird jedoch von anderen Disziplinen und nun auch durch sich ändernde ökonomische Rahmenbedingungen herausgefordert.

Um zukünftig und nachhaltig unsere Spezialität zu schützen, müssen wir durch Innovation immer an der Spitze der Versorgung stehen. Durch Forschung entwickeln wir unser Fach weiter und stellen durch Weiter- und Fortbildung die Versorgung in der Zukunft sicher. Entsprechend haben wir für dieses Jahr das Hauptthema «Innovation» in unserem Fachgebiet gewählt und werden viele Aspekte der neuen Entwicklungen beleuchten. Dazu haben wir renommierte und internationale Gäste eingeladen.

Am Donnerstag vor Kongressbeginn führen wir die Trainees Academy und erstmals auch eine Fortbildungsveranstaltung zu relevanten Themen durch.

In unserer Special Lecture werden wir uns der Kunst zuwenden und hoffen, Euch ein attraktives Rahmenprogramm bieten zu können. An dieser Stelle möchte ich mich schon ganz herzlich bei den OrganisatorInnen bedanken, heisse Euch herzlich willkommen und freue mich, Euch in Basel begrüßen zu können.

Mit besten kollegialen Grüßen

**Euer Dirk Schaefer**  
Präsident Swiss Plastic Surgery

## Bienvenue à Bâle

Chères collègues, chers collègues

J'ai le plaisir de vous inviter au 59<sup>e</sup> congrès annuel de notre société de discipline médicale qui se tiendra cette année à Bâle.

Pour la première fois depuis longtemps, ce congrès a lieu dans la vallée du Rhin, au nord-ouest de la Suisse. Mon nouveau lieu de résidence est une ville de sciences de la vie et d'arts, et nous aimerions vous le faire découvrir par le biais notre congrès et vous offrir un séjour intéressant.

Nous pouvons affirmer en toute bonne foi que Swiss Plastic Surgery est en mesure d'offrir aux citoyens suisses des soins de haut niveau concernant l'ensemble des traitements. Notre spécialité est cependant mise à l'épreuve par d'autres disciplines et maintenant aussi par des conditions économiques changeantes.

Afin de protéger notre spécialité à l'avenir et de manière durable, nous devons rester à la pointe des soins grâce à l'innovation. Nous développons notre spécialité par la recherche et assurons les soins futurs par la formation continue et post graduée. C'est pourquoi nous avons choisi pour cette année le thème principal de l'innovation dans notre spécialité et nous mettrons en lumière de nombreux aspects des nouveaux développements. Pour ce faire, des experts de renommée internationale ont été invités.

Le jeudi avant le début du congrès, nous organiserons la Trainees Academy et, pour la première fois, une session de formation continue sur des thèmes pertinents.

Notre conférence spéciale sera consacrée à l'art et nous espérons pouvoir vous proposer un programme attrayant. Je profite de l'occasion pour remercier chaleureusement les organisateurs, vous souhaiter la bienvenue et me réjouir de vous accueillir prochainement à Bâle.

Avec mes meilleurs salutations

**Votre Dirk Schaefer**  
Président Swiss Plastic Surgery
